

2016 NATIONAL CLEAN-UP

DAY: "Bayan Ko, Linis Ko"

EMB CALABARZON mobilized voluntary action on 17 September in cleaning up Imus-Ylang Ylang-Rio Grande River in observance of September as National Clean Up Month and third week of September as International Coastal Clean Up pursuant to P.D. 244 and P.D. 470, respectively. The activity was in collaboration with the Local Government Unit of Imus Cavite intended to clean the riverbank and nearby areas. More than one hundred (100) personnel from EMB4A and EMB Central Office gathered in a sloppy portion of the River to dig the garbages scattered around the river. The clean up activity which was celebrated every year was a simple yet powerful way in empowering and encouraging people to take an active role in cleaning up the garbages in our water bodies and our environment. With this kind of event, we can help prevent global warming and other environmental problems towards a better and healthy surrounding.
