

EMB CALABARZON AWARDS ENVIRONMENTAL LEADERS IN QUEZON PROVINCE
June 24, 2019

EMB CALABARZON recognizes the importance of a strong partnership with the local government in order to strengthen and ensure the effective implementation of environmental laws all over the country. For years, the province of Quezon has consistently shown their support for the Office in attaining its goal for sustainable development while maintaining a clean and healthy environment. With this, EMB CALABARZON awarded a plaque of recognition to Gov. David Suarez and PGENRO Manuel Beloso as environmental leaders who actively led in lobbying and ensuring the sustainability and preservation of our natural resources. The plaque of recognition was awarded last June 24, 2019 by Ms. Faina C. Ifurung – the Regional Executive Assistant for EMB CALABARZON – in behalf of Director Noemi A. Paranada and Ms. Corazon C. Gasapos, Regional Ecological Solid Waste Management Coordinator, during the Monday flag raising ceremony in the Provincial Capitol of Quezon, Lucena City.
