

EMB Region IVA – CALABARZON recognizes compliant PCOs from the Light Industry and Science Park (LISP)

Awarding of certificate of recognition to one of the PCOs of LISP Science Park

EMB Region IVA – CALABARZON gathered 24 of the best Pollution Control Officers (PCO) from the Light Industry and Science Park (LISP) I, II, and III, as well as the administrators and leaders of the various PCO associations of the Science Park last June 20, 2018 to recognize their environmentally sound and sustainable practices.

The activity which lasted for the whole day consisted of the presentation of best practices from selected locators of LISP I, II, and III, namely Eaton Industries Philippines, STMicroelectronics Inc., and Xylem Water Systems International, Inc. Their presentations involved technical solutions and environmental management models in their selected sites that aims to achieve positive results and direct impacts in terms of improved environmental conditions.

Gentron demonstrates its waste to waste to energy technology

Likewise to facilitate an in depth and effective sharing, guests from the Department of Energy (DOE) were also invited to discuss on the natural gas industry in the Philippines and their market profiling activity. Supplemental presentations regarding waste from waste to energy technology were also introduced to the PCOs by Genetron that covered the up-cycling and conversion of waste to other reusable materials and converting the waste generated from the conversion to energy. Genetron also showed the pollution control measures being taken to prevent the release of toxic materials from the process. Their presentation was immediately followed with a demonstration using their mobile prototype.

Pollution control officers (PCO) presents their best practices on energy conversation and responsible waste water treatment to their fellow PCOs

“PCOs and administrators play a big role in sustaining the balance between economic growth and environmental protection. We hope that you continue on with your best practices and strive to improve on them. Let us work together, we cannot do it [environmental protection and preservation] alone.”

RD Noemi A. Paranada
EMBR4A, Regional Director

“We are providing you [pollution control officers] this venue for learning to increase your level of knowledge and we hope that you continue to support our institution’s cause for environmental protection and sustainability” said Mr. Richard Albert I. Osmond, President & COO of SSPI.

As part of her closing statement for the activity, Dir. Parana-da presented the ten priority programs of DENR and the accomplishments and updates on the actions being taken by the bureau. She also urged everyone to do their part for the success of these endeavors. She stressed that “PCOs and administrators play a big role in sustaining the balance between economic growth and environmental protection. We hope that you continue on with your best practices and strive to improve on them. Let us work together, we cannot do it [environmental protection and preservation] alone.”
