

Environmental Management Bureau – CALABARZON Region and the entire DENR by the bay building where it is located underwent disinfection as a preventive measure against the virus SARS-Cov-2 that causes Coronavirus disease (CoVid-19) on July 5, 2020. The disinfection procedure was conducted by the City Government of Manila – Manila Disaster Risk Reduction and Management. EMBR4A utility staff also conduct regular disinfection of frequently touched surfaces within the office premises despite its employees remaining to be on Work-From-Home arrangement.
