

Environmental Management Bureau – CALABARZON Region Batangas Provincial Environmental Management Officer (PEMO) Ms. Luisa M. Garcia together with Ms. Marcelina Padullo immediately conducted investigation on February 4, 2021 upon receiving information from MENRO Alvin Jonson of Lian Batangas about an ammonia leak involving Pantoja Ice Plant located in Brgy. Kantino, Lian, Batangas. Leaves at the side of the creek adjacent to the vicinity were found wilted and to some extent burnt while a few dead fishes were also seen floating along the 25-meter stretch of the creek. Through the investigation conducted, it was also discovered that Pantoja Ice Plant has violated several Environmental laws. Pantoja Ice Plant has yet to explain the said incident and their violations.
