

Environmental Management Bureau - CALABARZON Region, led by maintenance personnel Mr. Nixon Alaba and Ms. Marife Prudencio, performs daily disinfection of the Office premises around 5:00 a.m. by thoroughly cleaning and misting high touch surfaces such as door knobs, keyboards, tables, and the like to prevent the spread of COVID-19 and protect the employees and clients thereof. Aside from the regular disinfection process, the Office also adopts work from home and skeleton work arrangements and reminds everyone to practice the minimum health standards in order to avoid COVID19 transmission.
