Preface

These Philippine Bidding Documents (PBDs) for the procurement of Consulting Services through Competitive Bidding have been prepared by the Government of the Philippines (GoP) for use by all branches, agencies, departments, bureaus, offices, or instrumentalities of the Government, including government-owned and/or -controlled corporations (GOCCs), government financial institutions (GFIs), state universities and colleges (SUCs), local government units (LGUs), and autonomous regional government. The procedures and practices presented in this document have been developed through broad experience, and are for mandatory use in projects that are financed in whole or in part by the GoP or the World Bank or any foreign government/foreign or international financing institution in accordance with the provisions of the 2016 Revised Implementing Rules and Regulations (IRR) of Republic Act 9184 (R.A. 9184).

The Bidding Documents shall clearly and adequately define, among others: (a) the objectives, scope, and expected outputs and/or results of the proposed contract; (b) the minimum eligibility requirements of bidders, such as track record to be determined by the Head of the Procuring Entity; (c) the expected contract duration, delivery schedule and/or time frame; and (d) the obligations, duties, and/or functions of the winning bidder.

In order to simplify the preparation of the Bidding Documents for each procurement, the PBDs groups the provisions that are intended to be used unchanged in Section II. Eligibility Documents of Part I; and Section II. Instructions to Bidders (ITB) and Section IV. General Conditions of Contract (GCC) of Part II. Data and provisions specific to each procurement and contract should be included in Section III. Eligibility Data Sheet (EDS) of Part I, Section III. Bid Data Sheet (BDS), and Section V. Special Conditions of Contract (SCC) of Part II. The forms to be used are provided in the attachments.

Care should be taken to check the relevance of the provisions of the Bidding Documents against the requirements of the specific Consulting Services to be procured. The following general directions should be observed when using the documents:

- (a) All the documents listed in the Table of Contents are normally required for the procurement of Consulting Services. However, they should be adapted as necessary to the circumstances of the particular Project.
- (b) These PBDs are divided into Part I and Part II, which shall be both made available from the time the Request for Expression of Interest is first advertised/posted until the deadline for the submission and receipt of bids
- (c) Specific details, such as the “name of the Procuring Entity” and “address for proposal submission,” should be furnished in the EDS, BDS, and SCC. The final documents should contain neither blank spaces nor options.
- (d) This Preface and the footnotes or notes in italics included in the Request for Expression of Interest, EDS, BDS, SCC, Terms of Reference, and Appendices are not part of the text of the final document, although they contain instructions that the Procuring Entity should strictly follow. The Bidding Documents should contain no footnotes except Section VII. Bidding Forms of Part II since these provide important guidance to Bidders.

- (e) The criteria for evaluation and the various methods of evaluation in the ITB should be carefully reviewed. Only those that are selected to be used for the procurement in question should be retained and expanded, as required in the BDS. The criteria that are not applicable should be deleted from the BDS.
- (f) The cover should be modified as required to identify the Bidding Documents as to the names of the Project, Contract, and Procuring Entity, in addition to date of issue.
- (g) If modifications must be made to bidding procedures, they can be presented in the BDS. Modifications for specific Project or Contract should be provided in the SCC as amendments to the Conditions of Contract. For easy completion, whenever reference has to be made to specific clauses in the EDS, BDS, or SCC these terms shall be printed in bold type face on Section II. Eligibility Documents, Section I. Instructions to Bidders, and Section III. General Conditions of Contract, respectively.

- (k) If a Consultant combines the function of consulting with those of contracting and/or supply of equipment for the same Project;**

- (m) If there is a conflict among consulting projects, the Consultant (including its personnel and subconsultants) and any subsidiaries or entities controlled by such Consultant shall not be recruited for the relevant project. The duties of the Consultant depend on the circumstances of each case. While continuity of consulting services may be appropriate in particular situations where no conflict exists, a Consultant cannot be recruited to carry out a project that, by its nature, shall result in conflict with a prior or current project of such Consultant. Examples of the situations mentioned are when a Consultant engaged to prepare engineering design for an infrastructure project shall not be recruited to prepare an independent environmental assessment for the same project; similarly, a Consultant assisting a Procuring Entity in privatization of public assets shall not purchase, nor advise purchasers, of such assets; or a Consultant hired to prepare Terms of Reference (TOR) for a project shall not be recruited for the project in question.**

Relationship of the nature described above or a failure to comply with the provisions of this clause will result in the rejection of the Consultant's bid.

- 2.3. **Subject to the provisions of ITB Clause 2, any previous or ongoing participation by the Consultant, its professional staff, or its affiliates or associates under a contract with the Funding Source or the Procuring Entity in relation to this Project may result in the rejection of its bid. - 2.4. **Failure by a Consultant to fully disclose potential conflict of interest at the time of Bid submission, or at a later date in the event that the potential conflict arises after such date, shall result in the Procuring Entity and/or the Funding Source seeking the imposition of the maximum administrative, civil and criminal penalties up to and including imprisonment.**

- 17.5. Bid envelopes that are not properly sealed and marked, as required in the bidding documents, shall not be rejected, but the bidder or its duly authorized representative shall acknowledge such condition of the Bid as submitted. The BAC or the Procuring Entity shall assume no responsibility for the misplacement of the contents of the improperly sealed or marked Bid, or for its premature opening.

D. Submission and Opening of Bids

18. Deadline for Submission of Bids

Bids must be received by the Procuring Entity's BAC at the address and on or before the date and time indicated in the BDS.

19. Late Bids

Any bid submitted after the deadline for submission and receipt of bids prescribed by the Procuring Entity, pursuant to ITB Clause 18, shall be declared "Late" and shall not be accepted by the Procuring Entity. The BAC shall record in the minutes of Bid submission and opening, the Consultant's name, its representative and the time the late bid was submitted.

20. Modification and Withdrawal of Bids

- 20.1. The Consultant may modify its bid after it has been submitted; provided that the modification is received by the Procuring Entity prior to the deadline prescribed for submission and receipt of bids. The Consultant shall not be allowed to retrieve its original bid, but shall be allowed to submit another bid equally sealed, properly identified in accordance with ITB Clause 17.4, linked to its original bid marked as "TECHNICAL MODIFICATION" or "FINANCIAL MODIFICATION" and stamped "received" by the BAC. Bid modifications received after the applicable deadline shall not be considered and shall be returned to the Consultant unopened.
- 20.2. A Consultant may, through a letter of withdrawal, withdraw its bid after it has been submitted, for valid and justifiable reason; provided that the letter of withdrawal is received by the Procuring Entity prior to the deadline prescribed for submission and receipt of bids. The letter of withdrawal must be executed by the authorized representative of the Bidder identified in the Omnibus Sworn Statement, a copy of which should be attached to the letter.
- 20.3. Bids requested to be withdrawn in accordance with ITB Clause 20.1 shall be returned unopened to the Bidders. A Consultant, who has acquired the bidding documents, may also express its intention not to participate in the bidding through a letter which should reach and be stamped by the BAC before the deadline for submission and receipt of bids. A Consultant that withdraws its bid shall not be permitted to submit another bid, directly or indirectly, for the same contract.
- 20.4. No bid may be modified after the deadline for submission of bids. No bid may be withdrawn in the interval between the deadline for submission of bids and the expiration of the period of bid validity specified by the Consultant on the Financial Bid Form. Withdrawal of a bid during this interval shall result in the forfeiture of the Consultant's bid security, pursuant to ITB Clause 15.5, and the imposition of administrative, civil, and criminal sanctions as prescribed by R.A. 9184 and its IRR.

E. Evaluation and Comparison of Bids

21. Opening and Preliminary Examination of Bids

- 21.1 Only bids from short listed bidders shall be opened and considered for award of contract. These short listed bidders, whether single entities or JVs, should confirm in their Technical Proposal Submission Form that the information contained in the submitted eligibility documents remains correct as of the date of bid submission.
- 21.2 The BAC shall open the bids immediately after the deadline for the submission and receipt of bids in public, as specified in the **BDS**. In case the bids cannot be opened as scheduled due to justifiable reasons, the BAC shall take custody of the bids submitted and reschedule the opening on the next working day or at the soonest possible time through the issuance of a Bulletin to be posted at the PhilGEPS website and the website of the Procuring Entity concerned.
- 21.3 To determine each bidder's compliance with the documents prescribed in **ITB** Clause 10, the BAC shall open the first envelope (Technical Proposal) and check the submitted documents of each bidder in accordance with ITB Clause 10.2 to ascertain if they are all present, using a non-discretionary "pass/fail" criterion. If a bidder submits the required document, it shall be rated "passed" for that particular requirement. In this regard, bids that fail to include any requirement or are incomplete or patently insufficient shall be considered as "failed". Otherwise, the BAC shall rate the said first bid envelope as "passed".
- 21.4 Letters of withdrawal shall be read out and recorded during bid opening, and the envelope containing the corresponding withdrawn bid shall be returned to the Consultant unopened
- 21.5 All members of the BAC who are present during bid opening shall initial every page of the original copies of all bids received and opened.
- 21.6 All technical envelopes shall be resealed. Those rated "passed" shall be secured for the detailed technical bid evaluation, while those rated "failed" will be secured for purposes of possible filing of a request for reconsideration unless the bidder waives its right to file a request for reconsideration, in which case, the envelope shall be returned to the bidder immediately. .
- 21.7 The Procuring Entity shall prepare the minutes of the proceedings of the bid opening that shall include, as a minimum: (a) names of Bidders, their bid price (per lot, if applicable, and/or including discount, if any), bid security, findings of preliminary examination, and whether there is a withdrawal or modification; and (b) attendance sheet. The BAC members shall sign the abstract of bids as read.

22. Process to be Confidential

- 22.1** Members of the BAC, including its staff and personnel, as well as its Secretariat and TWG, are prohibited from making or accepting any kind of communication with any Consultant regarding the evaluation of their bids until the approval by the HoPE of the ranking of shortlisted Consultants, unless otherwise allowed in the BDS or in the case of ITB Clause 23.
- 22.2** Any effort by a bidder to influence the Procuring Entity in the Procuring Entity's decision in respect of bid evaluation, bid comparison or contract award will result in the rejection of the Consultant's bid.

23. Clarification of Bids

To assist in the evaluation, comparison and post-qualification of the bids, the Procuring Entity may ask in writing any Consultant for a clarification of its bid. All responses to requests for clarification shall be in writing. Any clarification submitted by a Consultant in respect to its bid and that is not in response to a request by the Procuring Entity shall not be considered.

24. Bid Evaluation

- 24.1** For the evaluation of bids, numerical ratings shall be used. In order to eliminate bias in evaluating the Bids, it is recommended that the highest and lowest scores for each Consultant for each criterion shall not be considered in determining the average scores of the Consultants, except when the evaluation is conducted in a collegial manner.
- 24.2** For complex or unique undertakings, such as those involving new concepts/technology or financial advisory services, participating short listed consultants may be required, at the option of the Procuring Entity concerned, to make an oral presentation to be presented by each Consultant, or its nominated Project Manager or head, in case of consulting firms, within fifteen (15) calendar days after the deadline for submission of Technical Proposals.
- 24.3** The entire evaluation process, including the submission of the results thereof to the HoPE for approval, shall be completed in not more than twenty-one (21) calendar days after the deadline for receipt of bids. The bid with the highest rank shall be identified as the Highest Rated Bid. The HoPE shall approve or disapprove the recommendations of the BAC within two (2) calendar days after receipt of the results of the evaluation from the BAC.
- 24.4** All participating short listed consultants shall be furnished the results (ranking and total scores only) of the evaluation after the approval by the HoPE of the ranking. Said results shall also be posted in the PhilGEPS and the website of the Procuring Entity, if available, for a period of not less than seven (7) calendar days.

25 Evaluation of Technical Proposals

- 25.1** The BAC shall then conduct a detailed evaluation of technical bids following the procedures specified in the BDS depending on the evaluation procedure identified in the Request for Expression of Interest and ITB Clause 1.1.
- 25.2** The BAC evaluates the Technical Proposals on the basis of their compliance with the requirements under ITB Clause 10 and responsiveness to the TOR using the following criteria:
- (a)** Quality of personnel to be assigned to the Project which covers suitability of key staff to perform the duties for the Project and general qualifications and competence including education and training of the key staff;
 - (b)** Experience and capability of the Consultant which include records of previous engagement and quality of performance in similar and in other projects; relationship with previous and current clients; and, overall work commitments, geographical distribution of current/impending projects and attention to be given by the consultant. The suitability of the Consultant to the Project shall consider both the overall experiences of the firm and the individual experiences of the principal and key staff including the times when employed by other consultants; and
 - (c)** Plan of approach and methodology with emphasis on the clarity, feasibility, innovativeness and comprehensiveness of the plan approach, and the quality of interpretation of project problems, risks, and suggested solutions.
- 25.3** The BAC shall assign numerical weights and the minimum required technical score to each of the above criteria which shall be indicated in the BDS. A Bid shall be rejected at this stage if it does not respond to important aspects of the TOR or if it fails to achieve the minimum Technical Score (St) indicated in the BDS.
- 25.4** Technical Proposals shall not be considered for evaluation in any of the following cases:
- (a)** late submission, *i.e.*, after the deadline set in the ITB Clause 18;
 - (b)** failure to submit any of the technical requirements provided under this ITB and TOR;
 - (c)** the Consultant that submitted a Bid or any of its partner and/or subconsultant belongs to one of the conflict of interest cases as described in ITB Clauses 2.1(k) to (c) and failed to make a proper statement to that effect in the cover letter; or
 - (d)** the Technical Proposal included any cost of the services.

26 Opening and Evaluation of Financial Proposals

- 26.1** Financial Proposals shall be opened on the date indicated in the BDS.
- 26.2** The Financial Proposals opened shall be evaluated based on the evaluation procedure indicated in ITB Clause 1.1 using the corresponding procedure provided in the BDS.

27 Negotiations

- 27.1** Negotiations with the Consultant that submitted the Highest Rated Bid shall be held at the address indicated in the BDS. The aim is to reach agreement on all points.
- 27.2** Negotiations shall cover the following:
- (a)** Discussion and clarification of the TOR and Scope of Services;
 - (b)** Discussion and finalization of the methodology and work program proposed by the Consultant;
 - (c)** Consideration of appropriateness of qualifications and pertinent compensation, number of man-months and the personnel to be assigned to the job, taking note of over-qualified personnel to be commensurate with the compensation of personnel with the appropriate qualifications, number of man-months and schedule of activities (manning schedule);
 - (d)** Discussion on the services, facilities and data, if any, to be provided by Procuring Entity concerned;
 - (e)** Unless otherwise indicated in the BDS, discussion on the Financial Proposal submitted by the Consultant; and
 - (f)** Provisions of the contract.
- 27.3** Having selected the Consultant on the basis of, among other things, an evaluation of the proposed key professional staff, the Procuring Entity expects to negotiate a contract on the basis of the experts named in the bid. Before contract negotiations, the Procuring Entity shall require assurances that the experts shall be actually available. The Procuring Entity shall not consider substitutions during contract negotiations except for justifiable reason as may be determined by the Procuring Entity, such as illness, death, or resignation, unless both parties agree that undue delay in the selection process makes such substitution unavoidable or that such changes are critical to meet the objectives of the Project. If this is not the case and if it is established that key staff were offered in the bid without confirming their availability, the Consultant may be disqualified. Once the contract has been awarded, no replacement shall be allowed until after fifty percent (50%) of the personnel's man-months have been served, except for justifiable reasons as may be determined by the

Procuring Entity. Violators shall be fined an amount equal to the refund of the replaced personnel's basic rate, which should be at least fifty percent (50%) of the total basic rate for the duration of the engagement.

- 27.4 Negotiations shall include a discussion of the technical proposal, the proposed methodology (work plan), staffing and any suggestions made by the Consultant to improve the TOR. The Procuring Entity and Consultant shall then work out the final TOR, staffing, and bar charts indicating activities, staff, periods in the field and in the home office, staff-months, logistics, and reporting. The agreed work plan and final TOR shall then be incorporated in Appendix I and form part of the contract. Special attention shall be paid to getting the most the Consultant can offer within the available budget and to clearly defining the inputs required from the Procuring Entity to ensure satisfactory implementation of the Project.**
- 27.5 The financial negotiations shall include a clarification of the Consultant's tax liability in the Philippines, if any, and the manner in which it shall be reflected in the contract; and shall reflect the agreed technical modifications in the cost of the services. The negotiations shall conclude with a review of the draft form of the contract. To complete negotiations, the Procuring Entity and the Consultant shall initial the agreed contract. If negotiations fail, the Procuring Entity shall invite the Consultant whose Bid received the second highest score to negotiate a contract. If negotiations still fail, the Procuring Entity shall repeat the process for the next-in-rank Consultant until the negotiation is successfully completed.**

28 Post Qualification

- 28.1 The BAC shall determine to its satisfaction whether the Consultant that is evaluated as having submitted the Highest Rated Bid (HRB) complies with and is responsive to all the requirements and conditions specified in the Eligibility Documents and ITB Clauses 10 and 11.**
- 28.2 Within a non-extendible period of five (5) calendar days from receipt by the Consultant of the notice from the BAC that it submitted the Highest Rated Bid, the Consultant shall submit its latest income and business tax returns filed and paid through the BIR Electronic Filing and Payment System (EFPS) and other appropriate licenses and permits required by law and stated in the BDS.**

Failure to submit any of the post-qualification requirements on time, or a finding against the veracity thereof, shall disqualify the bidder for award. Provided, in the event that a finding against the veracity of any of the documents submitted is made, it shall cause the forfeiture of the bid security in accordance with Section 69 of the IRR of RA 9184.

- 28.3 The determination shall be based upon an examination of the documentary evidence of the Consultant's qualifications submitted pursuant to ITB Clauses 10 and 11, as well as other information as the Procuring Entity deems necessary and appropriate, using a non-**

discretionary “pass/fail” criterion, which shall be completed within a period of twelve (12) calendar days.

- 28.4** If the BAC determines that the Consultant with the Highest Rated Bid passes all the criteria for post-qualification, it shall declare the said bid as the Consultant with the HRRB, and recommend to the HoPE the award of contract to the said Consultant at its submitted price or its calculated bid price, whichever is lower, subject to ITB Clause 30.3.
- 28.5** A negative determination shall result in rejection of the Consultant’s bid, in which event the BAC shall proceed to the next Highest Rated Bid with a fresh period to make a similar determination of that Consultant’s capabilities to perform satisfactorily. If the second Consultant, however, fails the post qualification, the procedure for post qualification shall be repeated for the Consultant with the next Highest Rated Bid, and so on until the HRRB is determined for recommendation of contract award.
- 28.6** Within a period not exceeding fifteen (15) calendar days from the determination by the BAC of the HRRB and the recommendation to award the contract, the HoPE or his duly authorized representative shall approve or disapprove the said recommendation.
- 28.7** In the event of disapproval, which shall be based on valid, reasonable, and justifiable grounds as provided for under Section 41 of the IRR of RA 9184, the HoPE shall notify the BAC and the Consultant in writing of such decision and the grounds for it. When applicable, the BAC shall conduct negotiations, and if successful, post-qualification of the Consultant with the next Highest Rated Bid. A request for reconsideration may be filed by the bidder with the HoPE in accordance with Section 37.1.3 of the IRR of RA 9184.

29 Reservation Clause

- 29.1** Notwithstanding the eligibility, short listing, or post-qualification of a Consultant, the Procuring Entity concerned reserves the right to review its qualifications at any stage of the procurement process if it has reasonable grounds to believe that a misrepresentation has been made by the said Consultant, or that there has been a change in the Consultant’s capability to undertake this Project from the time it submitted its eligibility requirements. Should such review uncover any misrepresentation made in the eligibility and bidding requirements, statements or documents, or any changes in the situation of the Consultant which will affect its capability to undertake the project so that it fails the preset eligibility or bid evaluation criteria, the Procuring Entity shall consider the said Consultant as ineligible and shall disqualify it from submitting a bid or from obtaining an award or contract.
- 29.2** Based on the following grounds, the Procuring Entity reserves the right to reject any and all bids, declare a failure of bidding at any time prior to the contract award, or not to award the contract, without thereby

incurring any liability, and make no assurance that a contract shall be entered into as a result of the bidding:

- (a) If there is *prima facie* evidence of collusion between appropriate public officers or employees of the Procuring Entity, or between the BAC and any of the bidders, or if the collusion is between or among the bidders themselves, or between a bidder and a third party, including any act which restricts, suppresses or nullifies or tends to restrict, suppress or nullify competition;
- (b) If the Procuring Entity's BAC is found to have failed in following the prescribed bidding procedures; or
- (c) For any justifiable and reasonable ground where the award of the contract will not redound to the benefit of the GoP as follows:
 - (i) If the physical and economic conditions have significantly changed so as to render the project no longer economically, financially or technically feasible as determined by the HoPE;
 - (ii) If the project is no longer necessary as determined by the HoPE; and
 - (iii) If the source of funds for the project has been withheld or reduced through no fault of the Procuring Entity.

29.3 In addition, the Procuring Entity may likewise declare a failure of bidding when:

- (a) No bids are received;
- (b) All prospective bidders are declared ineligible;
- (c) All bids fail to comply with all the bid requirements or there is no successful negotiation, or fail post-qualification; or
- (d) The bidder with the HRRB refuses, without justifiable cause to accept the award of contract, and no award is made in accordance with Section 40 of the IRR of RA 9184.

F. Award of Contract

30. Contract Award

30.1 Subject to ITB Clause 28, the HoPE or its authorized representative shall award the contract to the Bidder whose bid has been determined to be the HRRB.

30.2 Prior to the expiration of the period of bid validity, the Procuring Entity shall notify the successful Consultant in writing that its bid has been accepted, through a Notice of Award duly received by the Consultant or

its authorized representative personally or by registered mail or electronically, receipt of which must be confirmed in writing within two (2) days by the Consultant with the HRRB and submitted personally or sent by registered mail or electronically to the Procuring Entity.

30.3 Notwithstanding the issuance of the Notice of Award, award of contract shall be subject to the following conditions:

- (a) Submission of the following documents within the (10) calendar days from receipt of the Notice of Award:**
 - (i) Valid JVA, if applicable;**
 - (ii) In the case of procurement by a Philippine Foreign Service Office or Post, the PhilGEPS Registration Number of the winning foreign consultant; and/or**

31. Signing of the Contract

31.1 At the same time as the Procuring Entity notifies the successful Bidder that its bid has been accepted, the Procuring Entity shall send the Contract Form to the Bidder, which contract has been provided in the Bidding Documents, incorporating therein all agreements between the parties.

31.2 Within ten (10) calendar days from receipt of the Notice of Award, the successful Bidder shall post the required performance security and sign and date the contract and return it to the Procuring Entity.

31.3 The Procuring Entity shall enter into contract with the successful Bidder within the same ten (10) calendar day period provided that all the documentary requirements are complied with.

31.4 The following documents shall form part of the contract:

- (1) Contract Agreement;**

- (2) **Bidding Documents;**
- (3) **Winning bidder’s bid, including the Technical and Financial Proposals, and all other documents/statements submitted (e.g., bidder’s response to request for clarifications on the bid), including corrections to the bid, if any, resulting from the Procuring Entity’s bid evaluation;**
- (4) **Performance Security;**
- (5) **Notice of Award of Contract; and**
- (6) **Other contract documents that may be required by existing laws and/or specified in the BDS.**

32. Performance Security

32.1 Unless otherwise provided in the BDS, to guarantee the faithful performance by the winning Consultant of its obligations under the contract, it shall post a performance security within a maximum period of ten (10) calendar days from the receipt of the Notice of Award from the Procuring Entity and in no case later than the signing of the contract.

32.2 The performance security shall be denominated in Philippine Pesos and posted in favor of the Procuring Entity in an amount not less than the percentage of the total contract price in accordance with the following schedule:

Form of Performance Security	Amount of Performance Security (Not less than the Percentage of the Total Contract Price)

(c) Surety bond callable upon demand issued by a surety or insurance company duly certified by the Insurance Commission as authorized to issue such security.	Thirty percent (30%)

32.3 Failure of the successful Consultant to comply with the above-mentioned requirement shall constitute sufficient ground for the annulment of the award and forfeiture of the bid security, in which event the Procuring Entity shall have a fresh period to initiate negotiation and if successful, complete post-qualification of the second Highest Rated Bid. The procedure shall be repeated until the HRRB is identified and selected for recommendation of contract award. However if no Consultant had a successful negotiation or passed post-qualification, the BAC shall declare the bidding a failure and conduct a re-bidding with re-advertisement, if necessary.

33. Notice to Proceed

33.1 Within seven (7) calendar days from the date of approval of the contract by the appropriate government approving authority, the Procuring Entity shall issue the Notice to Proceed together with copies of the approved contract to the successful Consultant. This involves understanding the objectives of the proposed Consulting Services, the significance of the service/assignments to achieve these objectives and the relationship of the services to the desired outputs.

The Consultant should discuss the technical approach, methodology and procedures for the following:

i. Required VA/Options Analysis – water quality and sediment sampling and evaluation and analysis of data taken .

The Rating of Criteria 3-b shall be determined as follows:

Level of Discussion	Rating	Requirements/Rationale
None	0	There is no discussion of this topic or activity.
Poor	2 points	The methodology to carry out important activities indicated in the TOR is inappropriate or very poorly presented, indicating that the Consultant has misunderstood important aspects of the scope of work. The required contents of the TOR are missing or superficially discussed.
Fair	6 points	The way to carry out the different activities in the TOR is discussed generically by the Consultant. The discussion of the methodology is general and not specifically tailored to the projects. Although suitable, the methodology does not include a discussion on how the Consultant proposes to deal with critical site specific characteristics of the Project. No new insights or deep appreciation of the interrelationships of problems and solutions to be provided for the Project are added. The discussion indicates an average perception of

		the Project conditions and does not reflect the specific features of the assignment.
	Satisfactory	8 points The proposed approach is discussed in detail and methodology is specifically tailored to the characteristics of the assignment and flexible enough to allow it to adapt to the changes that may occur during the execution of the Services.
	Excellent	10 points In addition to the requirements listed under “Satisfactory”, important issues are approached in an innovative and efficient way, indicating that the Consultant understood the overall detailed issues and problems of the assignment. The proposal details ways to improve the results and the quality of the assignment by using advanced approaches, methodologies and knowledge.

26.1	<p>The opening of Financial Proposals shall be on 5 August 2021 (Thursday), 10:00 a.m. at Environmental Management Bureau CALABARZON Region – DENR, 6th Floor DENR by the Bay Building (1515 L & S Building), Roxas Boulevard, Ermita, Manila.</p> <p>Financial Proposals shall be opened in public.</p>	
26.2	<p><i>For Quality Cost Based Evaluation (QCBE):</i> After the evaluation of quality is completed, the Procuring Entity shall notify those Consultants whose Bids did not meet the minimum qualifying mark or were considered non-responsive to the Bidding Documents and TOR, indicating that their Financial Proposals shall be returned unopened after completing the selection process. The Procuring Entity shall simultaneously notify the Consultants that have secured the minimum qualifying mark, indicating the date and time set for opening the Financial Proposals. The opening date shall not be sooner than two weeks after the notification date unless</p>	

otherwise specified in **ITB** Clause 26.1. The notification may be sent by registered letter, facsimile, or electronic mail.

The name of the Consultant, the quality scores, and the proposed prices shall be read aloud and recorded when the Financial Proposals are opened. The Procuring Entity shall prepare minutes of the public opening.

The BAC shall determine whether the Financial Proposals are complete, *i.e.*, whether all the documents mentioned in **ITB** Clause 11 are present and all items of the corresponding Technical Proposals that are required to be priced are so priced. If not, the Procuring Entity shall reject the proposal. The BAC shall correct any computational errors, and convert prices in various currencies to the Philippine Peso at the rate indicated in **ITB** Clause 13. The Financial Proposal shall not exceed the ABC and shall be deemed to include the cost of all taxes, duties, fees, levies, and other charges imposed under the applicable laws. The evaluation shall include all such taxes, duties, fees, levies, and other charges imposed under the applicable laws; where special tax privileges are granted to a particular class or nationality of Consultant by virtue of the GoP's international commitments, the amount of such tax privileges shall be included in the Financial Proposal for purposes of comparative evaluation of Bids.

The lowest Financial Proposal (Fl) shall be given a Financial Score (Sf) of 100 points. The Sf of other Financial Proposals shall be computed based on the formula indicated below:

$$Sf = 100 \times Fl/F$$

Where:

Sf is the financial score of the Financial Proposal under consideration,

Fl is the lowest Financial Proposal, and

F is the Financial Proposal under consideration.

Using the formula $S = St \times T\% + Sf \times F\%$, the Bids shall then be ranked according to their combined St and Sf using the weights (St is the technical score of the Technical Proposal under consideration; T = the weight given to the Technical Proposal; F = the weight given to the Financial Proposal; T + F = 1) indicated below:

T _____ [From 0.6 to 0.85]; and

- 48.2 The Procuring Entity shall use its best efforts to ensure that the Government shall:**

49. Access to Land

The Procuring Entity warrants that the Consultant shall have, free of charge, unimpeded access to all lands in the Philippines in respect of which access is required for the performance of the Services. The Procuring Entity shall be responsible for any damage to such land or any property thereon resulting from such access and shall indemnify the Consultant and each of the Personnel in respect of liability for any such damage, unless such damage is caused by the default or negligence of the Consultant or any Subconsultant or the Personnel of either of them.

50. Subcontract

- 50.1 Subcontracting of any portion of the Consulting Services, if allowed in the BDS, does not relieve the Consultant of any liability or obligation under this Contract. The Consultant will be responsible for the acts, defaults, and negligence of any subconsultant, its agents, servants or workmen as**

fully as if these were the Consultant's own acts, defaults, or negligence, or those of its agents, servants or workmen.

50.2 Subconsultants disclosed and identified during the bidding may be changed during the implementation of this Contract, subject to compliance with the required qualifications and the approval of the Procuring Entity.

- (c) permit the Funding Source to inspect the Consultant's accounts and records relating to the performance of the Consultant and to have them audited by auditors approved by the Funding Source, if so required.**

51.2 The basic purpose of this audit is to verify payments under this Contract and, in this process, to also verify representations made by the Consultant in relation to this Contract. The Consultant shall cooperate with and assist the Procuring Entity and its authorized representatives in making such audit. In the event the audit discloses that the Consultant has overcharged the Procuring Entity, the Consultant shall immediately reimburse the Procuring Entity an amount equivalent to the amount overpaid. If overpayment is a result of the Consultant having been engaged in what the Procuring Entity (or, as the case may be, the Funding Source) determines to constitute corrupt, fraudulent, or coercive practices, as defined in GCC Clause 27(e) and under the Applicable Law, the Procuring Entity shall, unless the Procuring Entity decides otherwise, terminate this Contract.

51.3 The determination that the Consultant has engaged in corrupt, fraudulent, coercive practices shall result in the Procuring Entity and/or the Funding Source seeking the imposition of the maximum administrative, civil and criminal penalties up to and in including imprisonment.

- 53.2 Remuneration for the Personnel shall be determined on the basis of time actually spent by such Personnel in the performance of the Services including other additional factors indicated in the SCC after the date determined in accordance with GCC Clause 22, or such other date as the Parties shall agree in writing, including time for necessary travel via the most direct route, at the rates referred to, and subject to such additional provisions as are set forth, in the SCC.
- 53.3 Remuneration for periods of less than one month shall be calculated on an hourly basis for time spent in home office (the total of 176 hours per month shall apply) and on a calendar-day basis for time spent away from home office (1 day being equivalent to 1/30th of a month).
- 53.4 Reimbursable expenditures actually and reasonably incurred by the Consultants in the performance of the Services are provided in the SCC.
- 53.5 Billings and payments in respect of the Services shall be made as follows:
- (a) The Procuring Entity shall cause to be paid to the Consultant an advance payment as specified in the SCC, and as otherwise set forth below.  - (b) As soon as practicable and not later than fifteen (15) days after the end of each calendar month during the period of the Services, the Consultant shall submit to the Procuring Entity, in duplicate, itemized statements, accompanied by copies of receipted invoices, vouchers and other appropriate supporting materials, of the amounts payable pursuant to GCC Clauses 52.1 and 53 for such month. Separate monthly statements shall be submitted in respect of amounts payable in foreign currency and in local currency. Each separate monthly statement shall distinguish that portion of

the total eligible costs which pertains to remuneration from that portion which pertains to reimbursable expenditures.

- (c) The Procuring Entity shall cause the payment of the Consultant's monthly statements within sixty (60) days after the receipt by the Procuring Entity of such statements with supporting documents. Only such portion of a monthly statement that is not satisfactorily supported may be withheld from payment. Should any discrepancy be found to exist between actual payment and costs authorized to be incurred by the Consultant, the Procuring Entity may add or subtract the difference from any subsequent payments. Interest shall be paid for delayed payments following the rate provided in the SCC.

54. Final Payment

- 54.1 The final payment shall be made only after the final report and a final statement, identified as such, shall have been submitted by the Consultant and approved as satisfactory by the Procuring Entity. The Services shall be deemed completed and finally accepted by the Procuring Entity and the final report and final statement shall be deemed approved by the Procuring Entity as satisfactory ninety (90) calendar days after receipt of the final report and final statement by the Procuring Entity unless the Procuring Entity, within such ninety (90)-day period, gives written notice to the Consultant specifying in detail deficiencies in the Services, the final report or final statement. The Consultant shall thereupon promptly make any necessary corrections within a maximum period of ninety (90) calendar days, and upon completion of such corrections, the foregoing process shall be repeated.
- 54.2 Any amount which the Procuring Entity has paid or caused to be paid in accordance with this clause in excess of the amounts actually payable in accordance with the provisions of this Contract shall be reimbursed by the Consultant to the Procuring Entity within thirty (30) days after receipt by the Consultant of notice thereof. Any such claim by the Procuring Entity for reimbursement must be made within twelve (12) calendar months after receipt by the Procuring Entity of a final report and a final statement approved by the Procuring Entity in accordance with the above.

55. Lump Sum Contracts

- 55.2 Personnel - Any replacement approved by the Procuring Entity in accordance with ITB Clause 27.3 shall be provided by the Consultant at no additional cost.

- 55.3 **Staffing Schedule** - Should the rate of progress of the Services, or any part hereof, be at any time in the opinion of the Procuring Entity too slow to ensure that the Services are completed in accordance with the Staffing Schedule, the Procuring Entity shall so notify the Consultant in writing and the Consultant shall at its sole cost and expense, thereupon take such steps as necessary, subject to the Procuring Entity's approval, or as reasonably required by the Procuring Entity, to expedite progress so as to ensure that the Services are completed in accordance with the Staffing Schedule.
- 55.4 **Final payment pursuant to the Payment Schedule in Appendices IV and V** shall be made by the Procuring Entity after the final report has been submitted by the Consultant and approved by the Procuring Entity.
- 55.5 **Termination** - Upon the receipt or giving of any notice referred to in GCC Clause 29 and if the Consultant is not in default under this Contract and has partly or substantially performed its obligation under this Contract up to the date of termination and has taken immediate steps to bring the Services to a close in prompt and orderly manner, there shall be an equitable reduction in the maximum amount payable under this Contract to reflect the reduction in the Services, provided that in no event shall the Consultant receive less than his actual costs up to the effective date of the termination, plus a reasonable allowance for overhead and profit.
- 55.6 Unless otherwise provided in the SCC, no additional payment for variation order, if any, shall be allowed for this Contract.

56. Liquidated Damages for Delay

If the Consultant fails to deliver any or all of the Services within the period(s) specified in this Contract, the Procuring Entity shall, without prejudice to its other remedies under this Contract and under the Applicable Law, deduct from the contract price, as liquidated damages, a sum equivalent to one-tenth of one percent of the price of the unperformed portion of the Services for each day of delay based on the approved contract schedule up to a maximum deduction of ten percent (10%) of the contract price. Once the maximum is reached, the Procuring Entity may consider termination of this Contract pursuant to **GCC** Clause 27.

Consulting Services for the Feasibility Study for the Proposed Wastewater and/or Sewage/Septage Treatment System in the (A) IMUS RIVER BASIN, (B) CANAS RIVER BASIN and (C) YLANG-YLANG-RIO GRANDE RIVE BASIN located in the Province of Cavite.

I. Introduction

The Clean Water Act of 2004 (R. A. 9275), Sanitation Code and LGU Ordinances, directly and indirectly regulate wastewater and sludge/biosolids disposal which are to be implemented by various local, national government and private agencies concerned. They are directed to comply/conform to the environmental standards and sanitation code specifically through Wastewater and Sewage/Septage Management Program in their areas of responsibilities/jurisdictions.

In response to the abovementioned statutory directives, the EMB CALABARZON REGION in coordination with the IMUS-YLANG YLANG-RIO GRANDE WATER QUALITY MANAGEMENT AREA and CANAS-MAALIMANGO WATER QUALITY MANAGEMENT AREA(WQMA) through its Governing Board shall implement its Wastewater Management Program by constructing combined wastewater and sewage/septage treatment facilities that will address the reduction of water pollution from household and commercial

establishments. Henceforth a feasibility study is to be undertaken to substantiate its viability of the said endeavour where it is intended to be operationalized in the WQMA.

II. Objectives of the Feasibility Study

To undertake a feasibility study (FS) on the proposed Wastewater and Sewage/Septage Collection, Handling, Treatment and Disposal Facility in order to determine the viability of implementing the program in (a) IMUS RIVER BASIN,(b) CANAS RIVER BASIN and (c) YLANG YLANG-RIO GRANDE

RIVER BASIN areas.. The proposed FS shall include but not limited to the following:

- a. To explore alternative schemes for wastewater and sewage/septage treatment and disposal for the different service providers within the WQMA areas and recommend the most feasible/doable scheme considering the relative technical, economic, financial, environmental, social, institutional and operational feasibility of the schemes.
- b. To determine the tariffs and subsidies, if any, that will cover the cost of sewage/sewerage management services, be affordable by the consumers, and enable the investors/service providers to recover their costs with a reasonable rate of return.
- c. To develop a program to strengthen the institutional capability of the service providers to efficiently deliver the wastewater and sewage/septage management services, and operate and maintain the systems.
- d. To prepare a proposed Project for the establishment of a Wastewater and Sewage/Septage Treatment Facility and its conveyance system that meet applicable government regulatory requirements.

The feasibility study must determine the technical, financial, legal/regulatory, social, economic and environmental aspects of the proposed Wastewater and Sewage/Septage Management Program to be constructed in the WQMA.

III. Scope of Works

A. Desired Outputs/Deliverables

The Consultant shall deliver the following outputs:

1. Report on existing wastewater and sewage/septage management situation and needs of the three river basin areas as provided under Section B.

10. Risk identification, allocation and mitigation scheme.
11. Feasibility Study Report.

In all aspects of the Scope of Works to be undertaken in this FS as will be stated thereon that would require public and/or focused-group/stakeholder participation/consultation, trainings, meetings/conferences and workshops, the Consultant shall ensure that it should be consulted **widely** with the targeted stakeholder/s. Furthermore, the Consultant would need to ensure that all stakeholders participating in any of the consultation exercise are fully “equipped” for a meaningful participation, through education of the various private sector participation options (using summary descriptions of concessions, lease, etc., description of contractual arrangements in the various options, regulatory arrangements, etc.). All schedules of consultations, trainings, meetings/conferences and workshops to be conducted in relation to the FS shall be properly disseminated and coordinated to the appropriate government authority and to the Procuring Entity.

B. Existing Situation/Needs

The Consultant shall conduct the following technical surveys:

1. Existing reports, studies and documentation, programs and projects of the concerned municipalities and city government and stakeholders (e.g. private, government, water utilities, etc.) relevant to wastewater and sewage/septage management programs.
2. Existing wastewater disposal and sewage/septage facilities to cover the three river basin areas.

3. Current wastewater and sewage/septage management service providers in the three river basin areas within their respective corporate profiles.
4. Existing areas, households and establishments served, and volume and duration of the wastewater and sewage/septage managed by each service provider in the said areas.
5. Tariff rates and collections of each wastewater and sewage/septage management service provider in the area.

8. Major problems and issues of each wastewater and sewage/septage management service provider in the area.

C. Regulatory Framework

The Consultant shall analyze existing government policies, laws and regulations for wastewater and sewage/septage management, including the Clean Water Act, and liaise with the regulatory agencies, including the DENR and DOH, to determine the environmental and other targets for the sector in the three river basin areas.

The Consultant shall analyze also existing national and local legislation related to sewerage/septage management services including the role of small scale independent private operators, regulation of privately provided sewerage/septage services, setting of tariffs, tax regimes, and to determine relevant recommendations for the implementation of the selected private/public sector participation options, including new legislation

D. Technical Options and Recommended Schemes and Proposed Project

The Consultant shall analyze and compare technical options for improvement in the wastewater and sewage/septage treatment and disposal system in the three river basin areas. These options shall include, among others, the establishment and operation of common wastewater and sewage/septage treatment plants serving a group of service providers in order to reduce costs and tariffs. The Consultant shall also consider best practices in wastewater and sewage/septage management applicable to individual areas.

The Consultant shall determine the technical options for improvement in the wastewater and sewage/septage treatment and disposal system in the individual river basin areas from the wastewater samplings and analyses, wastewater characterization for the selected sectors in the area and other reliable sources of water quality data. The Consultant should also undertake the identification of sources of water pollution, mapping and profiling and the conduct of total pollution loading assessment in the WQMA.

From this comparative evaluation, the Consultant shall recommend the most feasible/doable schemes for wastewater and sewage/septage management, in terms of their technical, economic, financial, environmental, social, institutional and operational feasibility and impact. The schemes will be recommended and presented to the river basin area stakeholders through the existing WQMA Governing Board members.

From among the feasible/doable schemes, the Consultant shall also recommend a wastewater and/or septage/sewage treatment facility, hereinafter referred to as Project, for the improvement of the wastewater and sewage/septage management in the individual river basin area. Upon concurrence and approval by the existing WQMA Governing Board, through a Board Resolution, the Consultant shall proceed with the Preliminary Engineering Design (PED) and other outputs and deliverables as stated in Section A.

E. Preliminary Engineering Design

The Consultant shall undertake the PED of the selected Project for the improvement of wastewater and sewage/septage management in WQMA with a degree of detail that will enable work quantities and construction costs to be estimated within plus or minus 10% of the final as-built values. The PED shall also include the cost of the construction of the WQMA Office and its Laboratory Facility Building.

The Consultant shall undertake the necessary engineering surveys and investigations to generate input data needed for the PED. These shall include topographic surveys, geotechnical/soil investigations, horizontal alignment, location surveys, vertical control benchmark surveys, cross section surveys and other geometric layout survey of the Project.

Based on the PED, the Consultant shall define the right-of-way (ROW) to be acquired for the Project facilities, including technical descriptions of the areas/sites.

The Consultant shall prepare the Minimum Performance Standards and Specifications (MPSS) for the design, construction, operation and maintenance (O&M) of the Project. The Consultant shall adopt these MPSS in carrying out the PED under this Section and incorporate the MPSS in the other outputs/deliverables.

F. Estimated Costs

The Consultant shall prepare detailed estimates of capital and operating and maintenance costs with a degree of accuracy of plus or minus 10% for each Project component to include among others the following:

1. Civil Works

- a. Direct costs, broken down into materials, labor, and equipment for local and foreign components
 - b. Indirect costs, broken down into mobilization/demobilization, overhead/contingency/miscellaneous (OCM), and profit
 - c. Taxes
 - d. Physical contingency
 - e. Price contingency
2. Detailed Engineering
 3. Construction Supervision
 4. Project Administration Cost, including but not limited to the cost of the development of a full blown Environmental Impact Statement (EIS) as a requirement for the Environmental Compliance Certificate of the Project, Land Acquisition and Resettlement Action Plan (LARAP) for the Project
 5. Right-of-Way Acquisition, including resettlement of affected persons

The O&M cost estimates shall include, but not limited to, the following items for every year of the applicable number of years of the Project's design life:

1. Personnel Services – salaries and wages
2. Operation and Administration Services – utilities, supplies, materials and other services
3. Repair and Maintenance Services – including annual and periodic maintenance of infrastructure components

G. Environmental and Social Impact Study

The Consultant shall conduct a preliminary environmental study and social study of the most feasible/doable schemes for the wastewater and sewage/septage management in the river basin areas as approved in Section D.

The environmental aspect of the study shall encompass the initial determination of the biophysical environment and the socio-economic dimensions, such as land, water, air and people that will be potentially affected by the Project based on available data. It includes both the direct (core) and indirect (influence) impact areas which determine the ecosystems to be potentially impacted by the Project together with the people/communities found within the confines of the impact zones.

The Consultant shall prepare a social impact assessment and gender analysis framework and conduct a social safeguards study for the Project. This framework shall provide guidelines to determine the social safeguards that need to be addressed, particularly land or ROW acquisition, involuntary resettlement and compensation, indigenous peoples and cultural property safeguards, and gender-differentiated impacts, before the Project initiates any

development activity concerning civil works, construction and other operation works. The ROW needed shall be assessed in conjunction with the technical studies and engineering design of the Project. The study would also seek to understand how and why some consumers (mainly in the poorer section of the community) are not connected to existing sewerage/septage services and the circumstances (e.g. connection policy, tariff, service levels) which will encourage their connection. Relative thereto, the Consultant shall evaluate the Ability-and-Willingness-to-Pay Survey for the proposed Project.

Based on the preliminary environmental study and social impact study, the Consultant shall generate an Environmental and Social Impact Assessment Report and Gender Analysis Report for the Project. This shall include among others the present environmental and social conditions based on the environmental and social survey, potential environmental and social impacts caused by the proposed Project as well as positive and negative impacts of the proposed Project on communities and their female and male members. The Report shall also present a mitigation strategy for gender-related risks and adverse effects.

H. Economic and Financial Evaluation

The economic evaluation shall be undertaken for the Project, utilizing the with- and without-the-project methodology to measure the feasibility indicators of the Project. All investment costs and revenues were converted to economic costs and benefits by: (a) eliminating transfer payments (taxes and duties) as well as price contingencies (inflation, foreign exchange movements, and interest during construction); and (b) applying shadow pricing for foreign cost component and local unskilled labor. The types of economic benefits from the Project shall be identified and quantified, such as improved health and productivity (savings in cost of treatment of waterborne diseases, increased value-added to the economy by persons whose lives would be saved from water-borne diseases). The economic feasibility indicators of Economic Internal Rate of Return (EIRR), Net Present Value (NPV) and Benefit-Cost Ratio (BCR) shall be calculated. A sensitivity analysis shall also be undertaken considering different scenarios such as 10% and 20% increase in costs and a 10% and 20% reduction in benefits, and combinations of these cases. The Consultant shall also estimate the employment to be generated by the Project during (a) its construction and (b) its operation after construction. This should include both direct and indirect jobs to be created in each stage.

The Consultant shall undertake the financial evaluation of the Project over its applicable number of years design life, using a flexible financial model that will compare the PPP modalities being considered. The evaluation shall show the annual increase in revenues and decrease in costs to the stakeholders of the river basin areas to be brought about by the

Project, through a more efficient wastewater and sewage/septage management system.

The financial evaluation shall be done in conjunction with the evaluation of likely alternative PPP modalities and regulatory/institutional aspects of the Project, considering the different funding sources and mixes as well as levels of Government

VGF or subsidy. The private proponent's debt equity mix shall generally follow current industry practice. The prevailing weighted average cost of capital (WACC) and cost of equity

applicable to wastewater and sewage/septage management projects, if available, shall be adopted as benchmarks. The Consultant shall develop a full financial model and financing plan for the Project including timelines for implementation and funds flow requirements. The financial model should include, but not limited to, tariff modelling, bid pricing analysis model, model for achieving financial closure, model for implementation, based on the project capital structure, project implementation schedule and funding structure. In the financial evaluation, the Consultant shall consider alternative tariffs and subsidies and their corresponding impact on the viability of the Project. The Consultant shall also calculate the financial viability indicators in terms of the Project Financial Internal Rate of Return (FIRR), Equity FIRR, Project Financial Net Present Value (FNPV), Equity FNPV, and Government Share FNPV, and Debt Service Coverage Ratio (DSCR) as well as to undertake Value-for-Money (VFM) analysis if VGF is proposed. The Consultant shall, through the financial model, perform sensitivity analysis for the purpose of quantifying the financial impacts of different structuring options. Furthermore, the proposed wastewater and sewage/septage charges or tariffs for the Project shall be based on analyses of the following:

1. Cost-recovery options, including any VGF required from the Government to ensure that the Project is sustainable.
2. Ability-and-willingness-to-pay of the individual service connectors of the proposed Project, based on surveys, with women and men as respondents, to determine acceptability of the proposed tariffs, and reasons for any opposition.
3. Tariff schedules of comparable wastewater and sewage/septage management services in other parts of the country.

I. Project Modalities and Institutional/Regulatory Framework

For the Project, the Consultant shall evaluate alternative modalities, which shall include, among others: (a) PPP, (b) concerned water service provider(s) in the WQMA, and (c) LGU-managed system. The options for PPP modality under the Build-Operate-Transfer (BOT) Law and its Implementing Rules and Regulations (IRR) may include, among others, Build-Transfer (BT), BOT and Build-Transfer-and-Operate (BTO) schemes for financing, design, construction and/or O & M of the Project.

The Consultant shall provide a detailed discussion on the possible PPP institutional/regulatory framework for the Project and develop options and make recommendations for the appropriate PPP modality, project structure and implementation strategy to carry out the Project through PPP. These shall include the identification of major players – Government (Local and National) and private – and the definition of their respective responsibilities, interrelationships and operating systems for the following aspects:

1. Screening and approval of proposed Project for PPP implementation
2. Implementation of the Project, covering the following:
 - a. Adoption of appropriate PPP modality
 - b. Determination of Government implementing agency for the Project

- c. Procurement from advertisement thru bidding to contract award – by the implementing agency identified in (c)
 - d. Contract execution – by the winning Concessionaire
 - e. Financing – Financial closure by the Concessionaire, and provision of VGF, if required, by the Government (National/Local)
 - f. ROW delivery and resettlement of affected persons – by the Government
 - g. Detailed design – preparation by the Concessionaire and approval by the implementing agency
 - h. Construction supervision and certificate of completion – by the implementing agency with or without assistance of an Independent Consultant
 - i. Services of the Independent Consultant, if needed – for review of the Concessionaire’s design and supervision of construction in compliance with the MPSS
3. Operation and maintenance (O&M) of the completed Project, including the following:
- a. Operating identity – Concessionaire or its designated operator
 - b. Identification of appropriate Government regulatory body(ies) for O&M
 - c. Automatic grant of franchise/concession for the Project operation – by the appropriate regulatory body to the winning Concessionaire
 - d. Setting and adjustment of service charges or tariffs – as provided in the contract
 - e. Tariff collection system – as provided in the contract
 - f. Setting and adjustment of pre-treatment standards
 - g. Key performance indicators (KPIs) for O&M – as provided in the contract
 - h. O&M monitoring and supervision – by the regulatory body(ies)

In carrying out the above, the Consultant shall undertake the following:

1. Assess the current state of operation, practices and requirements of existing wastewater and/or sewage/septage management, if any, and related projects/businesses/services, particularly the regulatory requirements for the construction and operation of wastewater and/or sewage/septage management.
2. Review the legal requirement relating the Project implementation (compliance with related laws) and pre-treatment standards and tariff setting (legal processes and impediments/requirements), including review of relevant policies, national and local laws, jurisprudence, regulatory framework and previous rulings, including Commission on Audit (COA) issuances that might have impact on the Project, and suggest appropriate legal approaches to be undertaken in the implementation of the Project under a PPP arrangement. Assess the legal issues

associated with the management of the social, economic and environmental impacts of the Project in a manner consistent with local laws, rules and regulations, international best practices, including among others issues on resettlement, and environmental consequences of the Project.

3. Develop “bankability” measures for the proposed PPP modality and structure such as fee payment mechanisms, pre-conditions for a private operator to fulfil in meeting service obligations, default and risk clauses, and step-in rights of the Government.
4. Formulate the appropriate institutional arrangement for the Project, taking into consideration the roles and responsibilities of the national government, local government and water districts/service providers in the implementation of the Clean Water Act.

Assess whether the Government’s role/participation in the proposed PPP Project, if recommended, corresponds to the Government’s legal obligations, and maintains sufficient power to protect the Government’s interests and constituents. Review the capacity of the concerned agencies to manage the implementation and operation of the Project and identify the required changes to improve the governance of the same.

5. Develop the legal architecture and design of the transaction, identifying the (i) type of PPP contractual arrangement to be used (e.g. BT, BOT, BTO, etc.); (ii) investment commitments to be required, their nature and management; (iii) investment plan, how, where and when investments will be made; and (iv) type of public sector support required, including terms and conditions, if any.

In performing the abovementioned tasks, the Consultant shall undertake consultations with key stakeholders concerned, including prospective PPP investors, banks, contractors, and operators, as well as the WQMA Governing Board, concerned LGU officials, water consumer groups and community organizations, to ascertain their views and suggestions on the feasible PPP modalities, project structures and funding and implementation strategies.

The Consultant shall make a comparative evaluation of the alternative PPP modalities, including project structures, funding sources and mixes, cost recovery mechanisms, and implementation strategies in terms of their legal bases, economic impact, financial viability, operational efficiency social acceptability, service quality, and risk allocation, among other factors, from the viewpoints of the local government, private investors, service providers/operators, consumers and other stakeholders. The legal issues and considerations for each modality shall be identified and addressed. Based on this evaluation, the Consultant shall recommend the preferred modality, project structure, implementation strategy, regulatory and institutional framework that will provide the best value for the Government, the private investor, service provider/operator, and consumers/users of the Project.

The Consultant shall submit the following outputs relating to the regulatory and institutional aspects of the Project:

1. Recommended appropriate modality, project structure, implementation strategy and regulatory/institutional framework for the Project that will provide the best value for the Government, the private investor/service provider and consumers/users. This shall be supported by the identification of the major entities involved and their respective responsibilities, interrelationships, and operating systems covering the different aspects and operations of the Project, from approval, procurement, financing, design, construction, O&M, performance monitoring and evaluation and governance.
2. Draft of the legal instruments to carry out the recommended appropriate modality, structure and regulatory/institutional framework. These shall include proposed ordinances, rules and regulations, and procedures relating to the Project aspects and operations.

J. Risk Allocation and Mitigation

The Consultant shall evaluate the risks in implementing the Project through the selected modality, and determine their appropriate valuation and allocation between the parties to the contract – i.e., the Government and the Concessionaire – and the appropriate risk mitigation measures. The risks to be evaluated shall include, but not limited to, the following:

1. Financing risks
2. ROW risks
3. Design risks
4. Construction and completion risks
5. Operation and maintenance risks
6. Market and revenue risks
7. Political risks
8. Force majeure risks

Based on the risk analysis of the Project, the Consultant shall prepare a contingent liability model that quantifies the contingent liabilities, how the same shall be managed, and the funding requirements. The Consultant shall recommend mitigation mechanisms that may be adopted by the party identified to bear each of the identified risks. In doing so, the assessment and applicability of various risk mitigation mechanisms shall be carried out, including a review of the extent to what risks of the project can be underwritten by commercial insurance cover and the likely cost of such cover.

K. Draft Feasibility Study Report

The Consultant would prepare and submit a Draft FS Report (in 3 hard and soft copies) with Executive Summary indicating the Project's sustainability, incorporating the findings, assessments, conclusions, options and recommendations of all the TOR/activities stated above, duly documented and with proper citations of all sources/data used to come up with the report. All primary and secondary data gathered, including transcripts, proceedings and minutes of meetings, conferences, consultations, trainings and workshops conducted, should be attached and included in the Report as annexes. The Consultants would have to consider its findings in relation to the possible public – private sector participations options and with appropriate justifications, make a recommendation as to the preferred financing and management option of the Project. V. Services and Facilities Provided by the Client

Give detailed description of the services and facilities made available to the Consultant, and the time and manner of its availment.

VI. Consultant's Representations Regarding Costs and Charges

Breakdown of Remuneration Rates, WB funded projects using Quality Based Selection, Selection Based on the Consultant's Qualifications and Single Source Selection.

1. Review of Remuneration Rates

1.1 The remuneration rates for staff are made up of salary, social costs, overheads, fee that is profit, and any premium or allowance paid for projects away from headquarters. To assist the Consultant in preparing for financial negotiations, a sample form giving a breakdown of rates is attached (no financial information should be included in the Technical Proposal). Agreed breakdown sheets shall form part of the negotiated contract.

1.2 The Procuring Entity is charged with the custody of Government funds and is expected to exercise prudence in the expenditure of these funds. The Procuring Entity is, therefore, concerned with the reasonableness of the firm's Financial Proposal, and, during negotiations, it expects to be able to review audited financial statements backing up the Consultant's remuneration rates, certified by an independent auditor. The Consultant shall be prepared to disclose such audited financial statements for the last three years, to substantiate its rates, and accept that its proposed rates and other financial matters are subject to scrutiny. Rate details are discussed below.

(i) Salary

This is the gross regular cash salary paid to the individual in the Consultant's home office. It shall not contain any premium for work away from headquarters or bonus (except where these are included by law or government regulations).

(ii) Bonus

Bonuses are normally paid out of profits. Because the Procuring Entity does not wish to make double payments for the same item, staff bonuses shall not normally be included in the rates. Where the Consultant's accounting system is such that the percentages of social costs and overheads are based on total revenue, including bonuses, those percentages shall be adjusted downward accordingly. Where national policy requires that thirteen (13) months' pay be given for twelve (12) months' work, the profit element need not be adjusted downward. Any discussions on bonuses shall be supported by audited documentation, which shall be treated as confidential.

(iii) Social Costs

Social costs are the costs to the Consultant of staff's non-monetary benefits. These items include, *inter alia*, pension, medical and life insurance costs, and the cost of a staff member being sick or on vacation. In this regard, the cost of leave for public holidays is not an acceptable social cost nor is the cost of leave taken during the Contract if no additional staff replacement has been provided. Additional leave taken at

the end of the Contract in accordance with the Consultant's leave policy is acceptable as a social cost.

(iv) Cost of Leave

The principles of calculating the cost of total days leave per annum as a percentage of basic salary shall normally be as follows:

$$\text{Leave cost as percentage of salary}^8 = \frac{\text{total days leave} \times 100}{[365 - w - ph - v - s]}$$

It is important to note that leave can be considered a social cost only if the Procuring Entity is not charged for the leave taken.

(v) Overheads

Overhead expenses are the firm's business costs that are not directly related to the execution of the project and shall not be reimbursed as separate items under the Contract. Typical items are home office costs (partner's time, non-billable time, time of senior staff monitoring the project, rent, support staff, research, staff training, marketing, etc.), the cost of staff not currently employed on revenue-earning projects, and business promotion costs. During negotiations, audited financial statements, certified as correct by an independent auditor and supporting the last three years' overheads, shall be available for discussion, together with detailed lists of items making up the overheads and the percentage by which each relates to basic salary. The Procuring Entity does not accept an add-on margin for social charges, overhead expenses, etc., for staff who are not permanent employees of the firm. In such case, the firm shall be entitled only to administrative costs and fee on the monthly payments charged for subcontracted staff.

(vi) Fee or Profit

The fee or profit shall be based on the sum of the salary, social costs, and overhead. If any bonuses paid on a regular basis are listed, a corresponding reduction in the profit element shall be expected. Fee or profit shall not be allowed on travel or other reimbursable expenses, unless in the latter case an unusually large amount of procurement of equipment is required. The Consultant shall note that payments shall be made against an agreed estimated payment schedule as described in the draft form of the Contract.

(vii) Away from Headquarters Allowance or Premium

Some consultants pay allowances to staff working away from headquarters. Such allowances are calculated as a percentage of salary and shall not draw overheads or profit. Sometimes, by law, such allowances may draw social costs. In this case, the amount of this social cost shall still be shown under social costs, with the net allowance shown separately. For concerned staff, this allowance, where paid, shall cover home education, etc.; these and similar items shall not be considered as reimbursable costs.

(viii) Subsistence Allowances

⁸ Where w = weekends, ph = public holidays, v = vacation, and s = sick leave.

Subsistence allowances are not included in the rates, but are paid separately and in local currency. No additional subsistence is payable for dependents — the subsistence rate shall be the same for married and single team members.

UNDP standard rates for the particular country may be used as reference to determine subsistence allowances.

2. Reimbursables

2.1 The financial negotiations shall further focus on such items as out-of-pocket expenses and other reimbursables. These costs may include, but are not restricted to, cost of surveys, equipment, office rent, supplies, international and local travel, computer rental, mobilization and demobilization, insurance, and printing. These costs may be either fixed or reimbursable in foreign or local currency.

3. Bank Guarantee

3.1 Payments to the Consultant, including payment of any advance based on cash flow projections covered by a bank guarantee, shall be made according to an agreed estimated schedule ensuring the firm regular payments in local and foreign currency, as long as the services proceed as planned.
