

Environmental Management Bureau – CALABARZON Region celebrated World Environmental Health Day with theme “*Kaligtasan at Kalusugan sa Kapaligiran, Bida sa Pagbangon ng Lipunan*” by organizing a webinar that emphasizes the importance of maintaining good environmental health and proper safety and sanitation towards recovery of our nation against the impacts of COVID-19 on September 30, 2021. Dra. Anna Lisa Ong-Lim, Section Chief of Infectious and Tropical Diseases Section of UP-PGH discussed what should be done when a person contracted Covid-19; Ms. Marie Junn Cuasing, OIC of Chemical and Hazardous Waste Permitting Section talked about the proper handling of household infectious waste and Engr. Bonifacio Magtibay, Technical Officer for Environmental and Occupational Health of World Health Organization discussed the condition of the Philippine Environment and Government responses to the Environmental Issues and other methods to coping amidst pandemic. The webinar was attended EMB employees, PCOs, students and people handling household infectious waste via MS Teams and was also broadcasted in the official Facebook page of EMB R4A. The event ended with the announcement of winners of the World Ozone Day Spoken Word Poetry Contest.
