

Environmental Management Bureau - CALABARZON Region conducted a five-day (June 12-17, 2022) flu vaccination for its employees at the EMB CALABARZON Regional Office. The said activity was spearheaded by their Gender and Development (GAD) Focal Team who saw the need to provide health and wellness programs like flu vaccination for additional protection and boost their immune system. The Flu Quadrivalent vaccine is the most effective way to prevent flu which is a contagious respiratory illness caused by influenza viruses. Minimum public health protocols were strictly observed during the activity.
