

Environmental Management Bureau – CALABARZON Region (EMBR4A) through the collaboration of Air Quality Monitoring Section, Environmental Education and Information Section, and Gender and Development program celebrated the National Clean Air Month and National Environmental Awareness Month by conducting a hybrid seminar and emission testing for the government vehicles on November 28, 2022 at the EMBR4A Regional Office. Mr. Michael Ayag and staff of MJL Environmental Solutions gave a lecture and demonstration of their Air Stack Emission Testing Procedure for EMBR4A's Technical Staff. Engr. Adonic Tomaro, OIC, Air Permitting Section and Engr. Carter Daba, OIC, Air Quality Monitoring Section headed the Emission Testing for the government vehicles.
