

**Environmental Management Bureau – CALABARZON Region (EMBR4A)** led by its Regional Director, Noemi A. Paranada, Chief of Environmental Monitoring and Enforcement Division, Engr. Jessie Conde, and OIC of Air Quality Monitoring, Engr Carter Daba, partnered with JG Summit Olefins Corporation to rehabilitate the existing Batangas Continuous Ambient Air Quality Monitoring Station and provide for the installation of Environmental Analyzer for Particulate Matter 10 (PM10) with meteorological sensors. The partnership took effect through the signing of a Memorandum of Agreement (MOA) on December 14, 2022, at EMBR4A Regional Office. This will help improve air quality by determining and creating future measures to reduce pollution pursuant to RA 8749, otherwise, known as the Philippine Clean Air Act of 1991.
