

Environmental Management Bureau – CALABARZON Region (EMBR4A) conducts water sampling at Nasugbu Beach, Matabungkay Beach in Batangas and Panguil River in Laguna on December 7, 2022. The purpose of which is to ensure that the water body's quality is within the Water Quality Guidelines or Criteria conforming to its Class SC classification. Mr. Rolin Gonzales and Mr. Froilan Fernandez of the Water Quality Monitoring Team collected the water samples and brought to the laboratory for testing.
